

Northwind Traders — IT Remote Work & Equipment Policy

Document Version 3.2 — Effective January 2026

1. Purpose

This policy defines the standards for remote work eligibility, equipment provisioning, reimbursement limits, and data security requirements for all Northwind Traders employees working outside of a company office. It applies to full-time employees, part-time employees working more than 20 hours per week, and approved contractors.

2. Eligibility

Employees are eligible for remote work arrangements after completing a 90-day probationary period, subject to manager approval. Roles requiring on-site equipment access, such as warehouse operations and hardware lab technicians, are not eligible for full remote status but may qualify for hybrid arrangements of up to two remote days per week.

3. Equipment Provisioning

The IT department will provide a standard equipment package to approved remote employees. Requests for additional or non-standard equipment must be submitted through the IT Service Portal and approved by a department director. Employees are responsible for the physical security of company-owned equipment while working remotely.

4. Standard Equipment Package

Item	Model	Refresh Cycle	Max Reimbursement
Laptop	Dell Latitude 7450	3 years	\$1,800
Monitor	Dell 27" UltraSharp	5 years	\$350
Headset	Jabra Evolve2 65	2 years	\$150
Docking Station	Dell WD22TB4	5 years	\$220
Ergonomic Chair	Employee's choice	5 years	\$400

5. Home Internet Reimbursement

Remote employees may claim a monthly home internet reimbursement of up to \$45 USD by submitting a receipt through the Expense Portal. Reimbursement requires a minimum connection speed of 100 Mbps download and 20 Mbps upload, verified annually.

6. Data Security Requirements

All remote employees must enable full-disk encryption, use the corporate VPN when accessing internal systems, and lock devices when unattended. Use of personal, unmanaged devices to access customer data is strictly prohibited. Any lost or stolen equipment must be reported to the Security Operations Center within four hours of discovery.

7. Frequently Asked Questions

Q: Can I use my personal laptop instead of a company laptop?

A: No. Company data may only be accessed from IT-managed devices enrolled in the corporate mobile device management (MDM) system, except for approved contractors using a virtual desktop environment.

Q: What happens if I move to a different state or country?

A: Employees must notify HR and IT at least 30 days before relocating, since tax residency, equipment shipping, and network access policies vary by jurisdiction.

Q: How do I request an ergonomic assessment?

A: Submit a request through the IT Service Portal under 'Workplace Ergonomics.' A specialist will schedule a virtual assessment within 10 business days.

Q: What is the maximum internet reimbursement per month?

A: \$45 USD per month, provided the minimum speed requirements in Section 5 are met.

8. Policy Owner

This policy is maintained by the Northwind Traders IT Governance team and is reviewed annually. Questions not covered in this document should be directed to it-policy@northwindtraders.example.
